

# Good YouTube Channels to watch

## The Next Layer

“

Welcome to The Next Layer, your go-to destination for all things 3D printing and "maker"! We are a community of enthusiasts who are passionate about creating and sharing our knowledge with others.

If you're a maker, tinkerer, or just someone who's interested in the latest 3D printing technology and trends, then you've come to the right place. Our channel features a wide range of content, from in-depth tutorials and reviews to behind-the-scenes looks at our own projects.

### [The Next Layer YouTube Channel](#)

Gridfinity system expert with practical 3D printing & organization tutorials. Covers storage solutions, filaments, and printing techniques. Perfect for organized makers.

## Mads Tech

**Mads Tech**  
@MadRC · 79.7K subscribers · 1.1K videos

This channel is a mixture of reviews, information and support on Drones, Radio Control and Tech. I try to provide content that help people make purchasing decisions and supports them with issues they may have. I also offer help and support across Facebook, RC Groups and other forums.
